

GRANGE CO-OP Community NEWSLETTER

COUNTY LIVESTOCK AUCTIONS

SEPTEMBER
2023

It is so rewarding to see the community come together and support such great organizations as FFA and 4-H. We are honored to be able to do our small part in attending each local auction and purchasing projects from hard working students. Thank you to a great community for coming together for another successful year at fair!

Grange Co-op attended a handful of livestock auctions across four counties. We were able to support over 30 youth livestock exhibitors who poured countless

hours into their projects. These young men and women work for months learning more about animal care and developing their agriculture knowledge.

ROGUE QUALITY FEED ON THE LOCAL SOCIAL

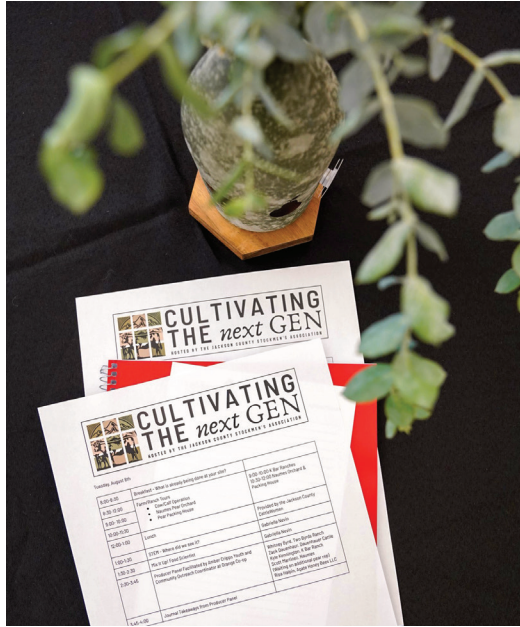

A pillar of the communities our stores serve is Rogue Quality Feeds, Grange Co-op's own brand produced in Central Point, Oregon. In the latest Local Social, the Grange Co-op grain elevator was highlighted, giving a behind the scenes look at how quality conventional and

organic livestock feed plays a role in our communities.

From supplying our local dairies with fresh feed to fueling prize market animals at an affordable price, Rogue Feed is an asset to the agriculture communities across the west.

CULTIVATING THE NEXT GEN

Grange Co-op proudly supported the first annual "CULTIVATING THE next GEN" professional development conference for educators across southern Oregon!

Attendees had the chance to network with other educators, learn from experts in various agriculture industries, and take part in hands-on activities that they can replicate with their students.

Grange Co-op is committed to supporting agriculture education at all grade

levels. By providing financial sponsorships to events like this and through donations of agriculture education materials for local educators. We are proud to support events like CULTIVATING THE next GEN that help to ensure that our future generations have a solid foundation in agriculture.

GRANGE CO-OP ROGUE GARDENERS TOMATO GARDEN

The Grange Co-op tomato garden at our Grants Pass location produced over 400 pounds of tomatoes this summer. The Rogue Gardeners of Josephine County work tirelessly each year to help provide fresh produce to our local food banks, and this garden plays a large part in those efforts.

Since the Grange Co-op Tomato Garden was established in 2019, over 4,000 pounds of tomatoes have been collected and donated to local food banks. We are grateful to the Rogue Gardeners for their hard work and dedication. Their efforts are making a real difference in our communities.

FIRE RELIEF

Fire season across California and Oregon brings more than smoky skies. As evacuation orders are issued, farmers, ranchers, pet owners and committed community members join to ensure animals are properly evacuated and cared for. Grange Co-op is proud to be able to support local non-profits that work to ensure the safety of animals and establish peace of mind for their owners.

Support by providing temporary shelter, animal feed, and water transportation is just a few of the things that have been made possible by the support of Grange Co-op customers who choose to round up for wildfire relief. Without your support, none of this would be possible.
